NOTICE OF SPECIAL EDUCATION SERVICES

The Cohasset Public Schools provides special education and related services to eligible students. These services include evaluations in the areas of the child's suspected disability as well as specialized instruction and related services such as speech and language therapy, occupational therapy, and physical therapy as they may relate to a child's educational program.

In accordance with Federal Law IDEA, and Massachusetts special education law 603 CMR 28.00, the Cohasset Public Schools provides these services for children who are attending not only public schools but also those attending private schools at private expense and whose parents reside in Cohasset.

Cohasset provides all children with the opportunity to participate in the public school programs using a continuous and systematic effort to identify children in need of special education services.

The Cohasset Public Schools will arrange for the provision and evaluation of those students, aged 16-21, who have not graduated from high school and who are not now attending school, or children aged 3 through 21 who are unable to progress effectively in a regular program due to a suspected learning disability or disability that impedes or limits their academic progress.

For more information, please contact Barbara A. Cerwonka, M.Ed, Director of Student Services at 781-383-6104.
