

I AM A DIGITAL CITIZEN

Teachers will oversee the use of technology devices in the school.

In order to use technology devices, students need to be responsible digital citizens and follow these rules:

Take Care of Myself

- I will only use websites for school work.
- I will keep my password and login information private.
- I will tell my teacher if I see something inappropriate online.

Take Care of Others

- I will always use kind and respectful words online.
- I will not use my device to bully or threaten anyone.
- I will report bullying or inappropriate behavior to a trusted adult.
- I will not ask or use anyone else's password.

Take Care of School Property

- I will take good care of school devices.
 - Clean hands
 - Gentle keyboard typing
 - Use two hands to carry all devices
- I will eat and drink away from computers.
- If I have a problem, I will not try to fix it myself.

Protect and Respect the Work of Others

- I will give credit for words, images, or media (including music) from the internet.
- I will follow copyright guidelines and cite my sources.

All School Rules Apply to Technology Too

I know that the school rules for behavior also apply to my actions when using technology at all times.
