

Remember these are just examples have fun and use your own ideas!

1. Cardboard Collagraph

- a. **Supplies:** cardboard you want thin like cereal boxes or snack boxes, glue, scissors, tin foil, crayons, paper of any kind
- b. Steps
 - i. Cut out shapes from cardboard – make sure to keep one-piece whole as your background
 - ii. Glue shapes on to background cardboard – either make an image or fun shape design, maybe try a pattern
 - iii. Once glue is dry cover with tin foil – wrap it like a present. If you need a little tape feel free
 - iv. This is now your printing plate. We are going to do a crayon rubbing. Place paper of similar size on top of printing plate and rubbing with a peeled crayon. Once done students can always use other materials to color in more detail their picture.

2. Bubble Printing

- a. **Supplies:** a cup, water, straw, paper, hand or dish soap, paint OR food coloring and covering for table this one can be messy
- b. Steps
 - i. Fill the cup $\frac{1}{4}$ th of the way with water, 2 drops of soap and 5 drops of paint or food color (may need to play around with ratio depending on cup size ect) STIR
 - ii. Place the straw in the cup and the paper over the cup.
 - iii. Have child start to blow into the straw until the bubbles hit the paper.
- c. Ideas
 - i. Move the paper around to overlap the bubble prints
 - ii. Multiple cups with different colors
 - iii. After the papers dry have students draw into the pictures with any material you have

3. Tin Foil Monoprint

a. **Supplies:** tin foil, paint, paper, paintbrushes OR cotton balls OR q-tips

b. Steps

- i. Cut tin foil to the same size as your paper. This can be as big or as small as you would like.
- ii. Paint directly on the tin foil. With this it may be easiest to use cotton balls or q-tips to get texture. You may have to work quickly as you do not want the paint to dry.
- iii. Place the paper on top of the tin foil and rub for 10 seconds. Make sure you get all the corners!
- iv. Peel off to reveal.
